Enjoyable little game. Some of the instructions are a bit funny. To enable xbox controller support, Press Ctrl + Y and move all the checkmarks to joypad. To fullscreen press 3. To make the game not an autorunner, change the controls to dpad. The controls feel a little bit floaty, but overall I enjoy the game and the writing. Characters are snarky and you get achievements for lots of random things. Such as inspecting poo. lol

All and all, not the next Mario but a fun way to waste a couple of hours when you are bored. OST is bright and cheery.. Good game, i enjoyed it.

Could not stop until i reached the end of all 3 levels.

Lasted 81 minutes lol, but still a descent game for the price.

maybe the levels will be longer in the future, who knows.. a better remake based on the original PAKO1.

Looking forward to adding more stages ☺☺. Nice physics and flight controls but not much of a racing game unfortunately. The tracks, if you can even call them that, are pretty bland and unlike something like F zero theres no sense of incredible speed. Graphics are good for what they accomplish but would have preferred better racing.

Weapon selection is cool though. I just wish there were more enemies to use them on. Fzero on nintendo 64 had 50 racers at once.

5V10. Corgi Warlock is an awesome game that delivers in absolutely every aspect. It takes about 3-4 hours to beat and each and every minute of them is fun. There is a very high number of different enemies, a bunch of bosses with some nice mechanics and weak points. The difficulty increases as you progress through the game but it never gets too difficult to become frustrating. And it's ONLY 3 euros at full price, which goes down to -80% (0.60) on sales. To maximize the fun, you should play with a controller and up to 3 friends, but I played it alone on a keyboard and still loved it. :). Combination hidden-object game and (non-complex) farming simulator, with some cute minigames and a tie-together plot. Overall, a good "here's all the casual games you like to play, have at them" mesh. 10 hours to 100% completion, and it starts getting monotonous\overly simple by that point, but a reasonable fun afternoon.. Manages to wear out its welcome within a couple of minutes.

You can master and explore 100% of this games content in 2 minutes.

Pass this by like all of this guy's other games.
